

OPEN MRI

Hitachi-AIRIS Elite Open MR

The patient-oriented Hitachi AIRIS Elite Open MR system provides comfort for the patient while delivering consistently high quality images needed for comprehensive diagnosis. During your MRI examination, a technologist will be with you and will be able to see you at all times. Also, an intercom system is built into the MR imager so that if you need anything, the technologist will be right there. It has an award-winning open gantry design with an asymmetric two-post architecture that offers the patient a Non-Claustrophobic environment.

CT SCAN

Hitachi-ECLOS16 Multi-Slice CT System

The ECLOS16 simultaneously acquires 16 slices in a fast 0.8-second scan time. This enables shorter breath-holds and reduces patient motion artifacts for maximum image quality. The ECLOS system design allows the technologist to directly address the patient while maintaining smooth operation essential to fast throughput and a positive patient experience.

Real-time 3D (4D) ULTRASOUND!

ALOKA ProSound A6

The ProSound a6 is the next generation of compact color ultrasound systems.

No Insurance? No Problem! We give you Good cash discounts as well! Call us!

We offer the following procedures:

- * Magnetic Resonance Imaging (MRI)
- * Magnetic Resonance Angiography (MRA)
- * Computed Radiography (Digital X-Ray)
- * General Ultrasound (Echocardiogram & Vascular)
- * Real-Time 3D (4D) Ultrasound
- * Computed Tomography (CT)

We are open

Monday – Friday Saturday
8:30am-6:00pm 9:30am-2:00pm

*We'll work around the clock to
accommodate for you!*

Call today to schedule your appointment.
